

Remember...

Be curious, try something new.

When you have a problem try and think about things differently.

Sometimes things don't always work out how we expected, sometimes they're even better!

Sometimes it's good to take time out and take a deep breath.

Sometimes the answer isn't obvious so you need to keep looking.

To invent something new, you need to start with a problem to solve.

Every problem has a solution you just have to discover it!

Persevere, making can be challenging.

Some of the best things happen unexpectedly.

Keep exploring, you never know what you might find.

The more you look the more you will see.

Never stop wondering.

30 day Maker Challenge

Makers think, question, design, create, struggle, collaborate, try, solve, invent and reflect. If you can imagine it, MAKE it!

1. Make something that shows how you are feeling today.
2. Make something that can fly.
3. Make something that bounces.
4. Make something that is very small.
5. Make something that has moving parts.
6. Make something that can hold the weight of a can of food.
7. Make something that an animal can play with.
8. Make something that can keep someone entertained.
9. Make something that helps somebody.
10. Make something that you can see through.
11. Make something that smells amazing.
12. Make something that makes music.
13. Make something that a gardener would appreciate.
14. Make something that will make somebody smile.
15. Make something colourful.
16. Make something that you can hang on the wall.
17. Make something that is useful.
18. Make something that can be taken apart then put back together again.
19. Make something you can take in the bath or shower.
20. Make something that moves in the wind.
21. Make something that floats.
22. Make something with things you find outside.
23. Make something out of only recyclable materials.
24. Make something your teacher would love.
25. Make something for someone in your family.
26. Make something you can hide in or under.
27. Make something to disguise how you look.
28. Make something very tall that won't fall over.
29. Make something you can hide in a pot plant.
30. Make something you want to play with today.

Your learning and your making is important, remember to share it,

- 📷 You could take photo's and use the 'Mark Up' tools to label or describe your creation.
- 🎥 You could make a movie, a slo-mo or a time-lapse or animate your creation to move.
- 🗣️ You could use the free app [Chatterpix](#) to make your creation talk or tell a story.
- 📱 You could add a post to Seesaw or a blog or where you share online and tell us about your making, what worked well, what would you do differently next time?
