

Have you heard about the “Play, Make, Create” learning concept?

Are you an advocate for or interested in play based learning? Are you passionate about the maker movement or at least intrigued by it? Are you using mobile technologies in your space? Well, what happens when play based learning, hands on making and mobile technology are infused, while having rich literacy at its core? You have more than just engaged and motivated learners who thrive, you have learners with a story to tell and a voice to be heard! If you want to nurture student led, hands on learning that develops oral language, deep thinking and self efficacy then this approach is for you. You'll be supported with a Kete of resources and be prepared with practical, proven examples of how to implement this in your own classroom environment regardless of year level.

Ways to connect:

Book to attend a workshop, either virtual or face to face [HERE](#)
Book a Teacher Only Day or in school PD by emailing paula@switchonnz.com
